CONTENTS
Volume 44 (1990)

A brief technical communication: Detection of fentanyl in urine 1–6
by R.L. Stiller, A.M. Scierka, P.J. Davis and D.R. Cook (Pittsburg, PA)
The electrostatic detection of apparatus (ESDA): Is it really non-destructive to documents? 7–21
by D.K. Tolliver (Indianapolis, IN)
An unusual case of fatal accidental paraquat poisoning 23–26
by R. Fernando, D.G. Harendra De Silva and T.S.D. Amarasena (Colombo and Ruhuna, Sri Lanka)
Extraction of diquat with 1-butanol from biological materials 27–35
by K. Minakata, O. Suzuki and M. Asano (Hamamatsu, Japan)
HPLC analysis of cocaine diastereoisomers by chiral stationary phase 37–41
by M. Chiarotti and N. Fucci (Rome, Italy)
Alcohol screening with the Alcosan test strip in forensic praxis 43–48
by A. Penttilä, P.J. Karhunen and J. Pikkarainen (Helsinki, Finland)
Comparative morphometric evaluation of permanent mandibular molar dentition of plain and hilly (Momba/Mongoloid) populations of Eastern Indian states 49–53
by A. Ganguli (Calcutta, India)
Components of paint thinner in body fluids clearly detected using the salting-out techniques 55–60
by K. Kato, T. Nagata, K. Kimura, K. Kudo, T. Imamura and M. Noda (Fukuoka, Japan)
Postmortem changes in the levels of monoamine metabolites in human cerebrospinal fluid 61–68
by T. Endo, S. Hara, F. Kuriiwa and S. Kano (Tokyo, Japan)
Plasmatic levels of atrial natriuretic peptide (ANP) in drowning. A pilot study 69–75
by J.A. Lorente, E. Villanueva, C. Hernández-Cueto and J.D. Luna (Granada, Spain)
Driving under the influence of toluene 77–83
by H. Gjerde, A. Smith-Kielland, P.T. Normann and J. Morland (Oslo, Norway)
Letter to the Editor 85–87
Book Reviews 89–90
Diary of Future Events 91–92
Positive- and negative-ion mass spectrometry and rapid clean-up of 19 phenothiazines 93–105
by Y. Ishikawa, O. Suzuki and H. Hattori (Hamamatsu and Aichi, Japan)
Vertebral artery rupture in traumatic subarachnoid haemorrhage detected by post-mortem angiography 107–115
by P.J. Karhunen, R. Kauppila, A. Penttila and T. Erkinjuntti (Helsinki, Finland)
Post mortem kinetics of secobarbital 117–123
by G. Quatrehomme, F. Bourret, M. Zhioua, P. Lapalus and A. Ollier (Nice, France)
Double logarithmic, linear relationship between plasma sodium/potassium concentration ratio and postmortem interval during the 6–96-h postmortem period in rats ... 125–134
by D. Querido (Cape Town, Republic of South Africa)

Histological examination of the temporal bone in medicolegal cases of asphyxia 135–142
by Y. Ito and H. Kimura (Fukuoka, Japan)
Demonstration of incompatible mother-child pairs in PGM_1 and Duffy systems in a three-generation family from the Upper Silesia (Poland) 143–149
by E. Raczek (Katowice, Poland)
The course of respiration and circulation in 'toluene sniffing' 151–158
by N. Ikeda, H. Takahashi, K. Umetsu and T. Suzuki (Yamagata, Japan)
The stability of several compounds in formalin fixed tissues and formalin-blood solutions 159–168
by C.L. Winek, F.M. Esposito and D.P. Cinicola (Pittsburgh, PA)
Correlation between 'on admission' blood toluene concentrations and the presence or absence of signs and symptoms in solvent abusers 169–177
by T. Miyazaki, T. Kojima, M. Yashiki, F. Chikasue and I. Tsukue (Hiroshima, Japan)
Screening for drugs in forensic blood samples using emit® urine assays 179–185
by H. Gjerde, A.S. Christophersen, B. Skuterud, K. Klemetsen and J. Morland (Oslo, Norway)
Nigerian juvenile offenders: a case-controlled study 187–192
by A.O. Ogunlesi (Abeokuta, Nigeria)
Enzyme-linked immunoabsorbent assay for plasma thyroglobulin following compression for the neck 193–201
by K. Tamaki and Y. Katsumata (Nagoya, Japan)
Typing study of human semen DIA_3 by isoelectric focusing – distribution in the Wuhan population, China 203–207
by U. Qingen, H. Qiuju, Y. Rongzhi and M. Kun (Wuhan, People's Republic of China)
Isolation of the DNA minisatellite probe MZ 1.3 and its application to DNA 'fingerprinting' analysis 209–224
by U. Schacker, P.M. Schneider, B. Holtkamp, E. Bohnke, R. Fimmers, H.H. Sonneborn and C. Rittner (Mainz and Bonn, F.R.G.)
^{1}H-NMR studies of postmortem biochemical changes in rat skeletal muscle 225–236
by V. Fineschi, M.P. Picchi, M. Tassini, G. Valensin and A. Vivi (Siena and Potenza, Italy)
High speed motion picture photography for studying the trajectory parameters of .303 ball MK 7 bullets fired through country-made weapons 237–244
by M. Jauhari, M.S. Rao, S.M. Chatterjee, A. Sen and A.K. Pal (Calcutta, India)
Immunoassay for methamphetamine with a new antibody 245–255
by K. Aoki, Y. Hirose and Y. Kuroiwa (Tokyo, Japan)
Development of the polygraph technique in Japan for detection of deception 257–271
by T. Yamamura and Y. Miyata (Kobe and Nishinomiya, Japan)
Isotachophoretic determination of lactate ions in vitreous humour samples and its use in forensic toxicology 273–280
by D.R. Harper (London, U.K.)
Book Reviews 281–283
Diary of Future Events 285–286
Subject Index Volume 44 287–290
Author Index Volume 44 291
Contents Volume 44 293–294
